studies and vector manufacturing process development.

**Amount:** \$263,029

Explanation: Vector Creation and New Technology Development - The Foundation is

developing novel technologies related to delivery of genes to the central nervous system for the treatment of lysosomal storage diseases. The Foundation has worldwide rights to key intellectual

property and has submitted additional US & PCT patent applications.

**Amount:** \$16,948

Explanation: Education and Communication for Patients and Families - The

Foundation has maintained a website on lysosomal storage diseases and the underlying mechanisms. The site explains the research being conducted by the Foundation. The Foundation also supports the scientific presentations of this research at medical conferences.

Amount: \$2,634

Explanation: Medical Research and Development Project Management - The

Foundation has developed a master plan for medical research on gene therapies for lysosomal storage diseases, conducted reviews of proposed research, coordinated research being conducted at research institutes, and participated in critical reviews of the results. Project management and independent scientific review support have
